

LTI makes it all easy.....

- Once it is enabled on your LMS or other services.
- Once you've tried it a few times.
- Once you have a clear use case for it.
- Once you find some things you wish to share/integrate, provide or consume.

What is the LTI Standard?

- •LTI = Learning Tools Interoperability
- •LTI is an open standard created by LMS Global
- •LTI establishes trust between a single application
- •course) and an external tool (e.g. Mahara).

The VLE landscape

The hard bit.... (maybe)

- IT team must enable a some number of plugins.
- Proxies, firewalls, redirect behaviours.

> Site administration > Plugins > Enrolments > Manage enrol plugins

Use Cases

- Sharing and collaboration across multiple LMS
- Building a dispersed but rich VLE (with simple SSO)
- Replacement of MNET (Mahoodle)

The LTI Mahoodle Roadmap

•Mahara assignment plugin for Moodle to utilise LTI.

https://blueprints.launchpad.net/mahara

•Roadmap proposal

 $https://wiki.mahara.org/wiki/Developer_Area/Specifications_in_Development/MNet_replacement/LTI_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_implementation\#Proposal_for_initial_imple$

Who's hungry?
